**Re: Global Crossing Bandwidth, Inc.
Responses to Detailed Audit Findings**

Dear Mr. Scott:

Enclosed please find the responses of Global Crossing Bandwidth, Inc. to the Detailed Audit Findings of the Universal Service Administrative Company. As the responses demonstrate, USAC has vastly overstated the adjustments required to Global Crossing's 2005 Form 499-A. In preparing the responses, Global Crossing utilized the financial data provided with the audit findings. Thus, the financial data used in the response should be replicable. We are, of course, happy to answer any questions or discuss this matter further. If there are questions of a technical nature, please contact Michael Allentoff at 585.255.1424. For questions that are more of a policy nature, please contact me or Diane Peters, Director – Regulatory Affairs. North America at 585.255.425.

On a related subject, I do note that USAC did disseminate highly confidential Global Crossing data to an unnamed third party which I surmise is, at the very least, a competitor of Global Crossing. It is not clear precisely what data was distributed, but the data that Global Crossing has provided USAC during the course of the audit is highly sensitive, both for Global Crossing and its customers. While I appreciate USAC's efforts to retrieve the data, as you know, often it is hard if not impossible to unring the bell.

Global Crossing is considering its options as a result of this matter, but in any event, intends to hold USAC fully accountable for any damages that Global Crossing may have sustained. If you wish to discuss this matter further, please contact me directly.

Very truly yours,

Michael J. Shortley, III
